

HOSTED EXCHANGE SECURE

THE EMAIL SOLUTION
AT A SMALL BUSINESS PRICE

WHAT IS EXCHANGE SECURE?

Exchange Secure gives you the gold standard in messaging services without the hefty price tag. It contains everything a small business needs to send email securely, with security features such as anti-spam and anti-virus, email archiving, and an advanced, one-click restore backup solution. Just like our Exchange mailboxes, Exchange Secure perfectly integrates with Outlook, so you can jump right in to a familiar, comfortable inbox.

UNLIMITED EMAIL STORAGE

Exchange Secure has unlimited email storage. No restrictions and fully adjustable to suit your needs, choosing Exchange Secure means bigger is better.

All email data is stored on UK shores and hosted in two geographically diverse datacentres which are quad protected for ultra resilience. Should one datacentre have issues, your mailbox data will automatically failover to our sister site, meaning you'll experience less downtime and be safe in the knowledge that your data remains secure within the UK.

EMAIL SECURITY COMES AS STANDARD

Our Email Security is exclusively bundled into Exchange Secure for significant customer savings.

Benefit from features such as:

- Anti-virus and anti-spam protection
- Real-time advanced reporting
- 14-day spam release
- Locate previously deleted emails
- Customise banned file extensions
- 1 or 10-year email archiving (inbound and outbound)
- Quick read and release of archived messages

70%

**OF CYBER-ATTACKS TARGET
SMALL BUSINESSES...**

So it's easy to see why backing up email is critical for anyone, no matter the business size. Hosted Exchange Backup from Dropsuite is a powerful cloud-based SaaS solution featuring automated, set-and-forget backup and one-click restore for our Hosted Exchange platform, included in Exchange Secure.

WHY CHOOSE EXCHANGE SECURE?

BIGGER STORAGE

Enterprise Mailboxes come with unlimited mailbox storage, so there's more room to store all your emails and there's no need to worry about deleting important conversations.

ALWAYS SECURE

Each mailbox comes with its own spam folder, so you never miss an important message. Plus, the anti-spam and anti-virus technology will keep your mailbox secure from malicious messages.

NEVER LOSE IMPORTANT EMAILS

All Enterprise mailboxes come with either one-year or ten-year secure email archiving, so your messages are always available to adhere to universal compliance regulations.

FULL MIGRATION SUPPORT

If you're moving from another provider or from an on-premises Exchange server, you'll benefit from full migration support with us.
